Restoring the Republic is the Remedy!

Join Clyde Cleveland, the author of *Common Sense-Revisited* and 2002 libertarian candidate for Iowa Governor for an eye-opening presentation on our Government and how we can restore it to the Republic in its original form.

Learn about Indigenous and Surrogate Powers, and how Americans have surrendered their “Sentient Power”. The good news is, we can peacefully, and lawfully, re-inhabit our Sovereign status and reclaim a bottom-up, “By, of, and For the People”, Republic form of Government... This is what was intended by our founding fathers, and for which many others have given their lives to protect.

Following the presentation Clyde will discuss how we can participate in rebuilding our State and National Republics.
